

AUTOBIOGRAPHY TASK

Complete the Autobiography Task!

Send your Autobiography by August 28 to ingrid.stewart@csn.edu with the following in the subject line:

[your name] – Autobiography

Introduce yourself. If you are a private person and you don't like to share too much, you must still manage to write at least 3 SUBSTANTIAL sentences. Please note that "Hi my name is Joe Brown" does not count as one of the sentences!

You might want to read the instructor's autobiography for ideas. You can find it at <http://profstewartmath.com/General/instructor.html>.

Once the instructor receives your autobiography, she will send you a password so that you may begin studying Lesson 1 and completing Practice 1, IFF you wish to do so.

Please understand that you must still attend the mandatory on-campus class meeting on **Saturday, August 30.**

Please be aware that you must complete the Autobiography again in the *MyOpenMath* "Autobiography" Forum **by September 2 at 11:59 PM**. Part of the online world is getting to know each other through our personal life and activities too. If you'd like, you can also post appropriate pictures!

NOTE: Should you neglect to complete the Autobiography in MyOpenMath, you will be blocked from the MOM Math 116 course until it is done!

Sincerely,

Dr. Stewart
